(c) Continuing Education or Training

	University or Institution	Type	Detail	Dates
1.	Epic University	EMR	Kaleidoscope	January 2016
2.	Epic University	EMR	Basic Physician Builder	Dec 2015
3.	The Dartmouth Institute	PHP	Clinical Microsystems	2014

(d) Continuing Medical Education

Ongoing: CME Report available on request with the following activities:	
1.	Conferences and meetings (see below)
2.	Literature review (Audio Digest, Practical Reviews of Ophthalmology, journals)
3.	Ophthalmology rounds

(e) Professional Qualifications

1.	Board-certified ophthalmologist (Canada & USA)
2.	Sub-specialized in glaucoma – clinical and surgical
3.	Surgeries: glaucoma including MIGS, cataract
4.	Expertise in EMRs (Electronic Medical Records)
5.	Expertise in physician education with Masters of Education degree
6.	Tech geek: maintain several websites, a podcast, interested in everything tech.

6. EMPLOYMENT RECORD**(a) Prior to UBC**

8. TEACHING

(a) Areas of special interest and accomplishments

I have been in glaucoma clinical and academic practice since 1996. I fully embrace educational technology for continuing professional development, and have helped create and foster inter-professional collaborative models of eye care.

At the University of Michigan, I developed a series of interactive CD ROMs to teach ophthalmic surgical procedures. This series, *Multimedia Oculosurgical Modules (MOM)*, was the top selling ophthalmic title for Mosby Inc, the leading publisher in ophthalmology at the time, and was an innovation in the use of technology for teaching medicine.

After starting my Masters in Education at UBC in 2000, while in full-time practice, it became clear to me that the needs of the practicing physician had not been properly assessed in specialty areas of medicine when the curriculum was developed. I completed my Masters in Education work in 2005 with two studies. The first looked at the practice patterns of all glaucoma specialists in Canada to determine whether we had the resources to care for the growing population of glaucoma patients. The second examined what general ophthalmologists in urban and rural settings in BC needed to know to determine if our residency training program delivered appropriate content. This concept was adopted into UBC Ophthalmology's curriculum.

In 2001-2004, while I was chair of our weekly Grand Rounds, I created online access to the lectures. This was further expanded to live Telemedicine broadcasting across the province to increase the exchange of knowledge in the community.

As Director of Undergraduate Education for ophthalmology from January 2002 until my heart attack in 2005, I developed a mini-clinical evaluation exercise ("mini-CEX") to assess medical students' mastery of key aspects of the eye exam during their third-year rotation in ophthalmology. I brought my knowledge of distributed learning to monthly medical school expansion meetings and worked on a new ophthalmology curriculum for the medical students.

I have been actively involved in fostering inter-professional collaboration in eye care at the local, provincial,

and national levels. In BC, I helped create the Standards, Limits and Conditions for Glaucoma care by Optometry. In Canada, I helped write the *Guidelines for Inter-professional Collaboration for Glaucoma Care* with the Canadian Glaucoma Society. I was on the Board of Directors of the Canadian Coalition of Eyecare Professionals (CCEPro), building bridges between Opticians, Optometrists and Ophthalmologists. I was appointed to the Board of Directors of the Health Data Coalition of BC as their first specialist to identify and gather quality measurements. All of these efforts focus on patient-centred care.

My M.Ed. fostered an interest in program planning. I have organized glaucoma programs at national meetings, including surgical skills transfer workshops and programs at the Canadian Ophthalmological Society annual meetings. I helped develop the curriculum for a fully accredited national speakers program and have taken advantage of the latest technology to bring glaucoma education to a wider audience.

I have a podcast series, "Talking About Glaucoma," a Glaucoma Patient Group on Facebook, a blog on Glaucoma, Health IT, technology and inter-professional collaboration that has more than 1,700 visitors per month (<http://wholelottarob.com>), run a sub-reddit for posting glaucoma published literature (<http://talkingaboutglaucoma.reddit.com>), and I created the Canadian Glaucoma Society website (<http://cgs-scg.org>). My expertise in technology and media tools for education led to my appointments to the Practice Management sub-committee and the Website Committee for the American Glaucoma Society, and the board of King David High School. Technology is changing how we provide continuing professional development and distribute medical information and I love being part of the change.

(b) Courses Taught at UBC:

1.	Taught medical students, residents and fellows in clinical and surgical setting. Detailed timesheets available upon request.	October 1999 - July 2013
----	--	--------------------------

(c) Students Supervised at UBC:

1.	Supervised medical students, residents and fellows in my clinical practice and in surgery. Lists of fellows available upon request.	October 1999 - July 2013

(d) Continuing Education Activities

Continuing Education Presentations (as Educator/Lecturer, Keynote Speaker, visiting and invited lecturer, grand rounds) (include community/organization):

Local – UBC Sponsored

Topic	Activity/Role	Date
1. Glaucoma Top 10 Misconceptions	1 hour interactive grand rounds	February 1, 2008 (UBC ECC)
2. Hypotony	1/2hr lecture to Ophthalmologists at BCSEPS Clinical Day	April 20, 2007 (Wosk Centre for Dialogue)
3. HRT progression	UBC Grand Rounds: Presented lecture and led discussion	March 23, 2007
4. Glaucoma: trabeculectomy & follow-up care	UBC Grand Rounds: Presented lecture & discussion:	March 10, 2006

5. The Clinical Application of Diagnostic Testing in Glaucoma	Presented lecture & co-organized the day	November 8, 2002
6. Various talks	(2 hour equivalent) Chaired program and presented talks	October 19, 2001
7. UBC Grand Rounds	1 hour lecture with Drs Kendall Ho and Duncan Anderson	January 26, 2001
8. Glaucoma Drainage Implants	1 hour lecture on UBC Nursing in-service	November 29, 2000
9. How do Ophthalmologists Learn and Secondary Angle Closure Glaucoma	1 hour lecture: UBC Grand Rounds	January 7, 2000

Local – Non-UBC Sponsored

Topic	Organization/Role	Date
1. Pot Pourri for \$1000 Alex	College of Optometrists of BC Clinical Education Day	May 6, 2018 (UBC Eye Care Centre)
2. Overview of Pharmacologic Treatment of Glaucoma	Invited speaker for BC Optometry CE Program (Alcon)	Apr 22, 2013 Burnaby
3. MIGS and Tubes	Invited speaker (Labtician)	Nov 26, 2012 Richmond
4. POAG OD Eye MD Perspective	Invited speaker for BC Optometry CE Program	Sept 23, 2012 (UBC Eye Care Centre)
5. Surgical Therapy in Glaucoma	Invited speaker for BC Optometry CE Program	Sept 23, 2012 (UBC Eye Care Centre)
6. Imaging: Standard of Care?	INSIGHTS in Ophthalmology (Allergan)	July 10, 2012 Victoria, BC
7. iStent, Glaucoma Progression, Optometry & More	Invited speaker North Shore Eye Associates	December 1, 2010
8. Advances in Surgical Glaucoma	Invited speaker for BC Optometry CE Program	Sept 19, 2010 (UBC Eye Care Centre)
9. Treatment Philosophy Open Angle Glaucoma	Invited speaker for BC Optometry CE Program	September 19, 2010 (UBC Eye Care Centre)
10. Glaucoma: Patient Centred Care	Invited speaker for BC Optometry CE Program	April 11, 2010 (UBC Eye Care Centre)
11. The Latest In Social Networking: Tech Tips For Today's Ophthalmologists	Invited speaker North Shore Eye Associates	November 18, 2009
12. Glaucoma Surgery	1 hr lecture to most optometrists in BC (BCAO CE program)	February 16, 2008
13. Glaucoma Top 10 Misconceptions	1.5 hr discussion with ophthalmologists (Merck)	October 23, 2007 (Surrey)
14. Personal Learning Project: New Therapies and Imaging	2 hr discussion with ophthalmologists (Alcon)	May 9, 2007 (Kelowna)

15. Medical Treatment of Glaucoma	1 hr discussion with ophthalmologists (Merck)	April 25, 2007
16. Personal Learning Project: Modules: Diurnal pressure control and case studies	3 hrs to ophthalmologists (Alcon Canada)	March 14, 2007 (Surrey)
17. The Angle and Disc	2 hr lecture and discussion for optometrists	February 26, 2007
18. Personal Learning Project: Modules: Diurnal pressure control	3 hrs to ophthalmologists on cases studies for personal learning projects (Alcon Canada)	March 4, 2006
19. Glaucoma: The Role of the GP	1 hr Family Practice Grand Rounds (Alcon Canada)	December 6, 2005 (Mt St Joseph Hospital)
20. AGS Annual Meeting Highlights	1 hr lecture & discussion (Allergan)	March 16, 2005 (EyeWest Vision)
21. HRT Detecting Progression	1 hr lecture & discussion at BC Assoc'n Optometrists Annual Congress (Innova Medical)	February 19, 2005
22. Glaucoma Technology & Dry Eye	2 hr lecture & discussion (Alcon Canada)	November 30, 2004
23. Are We There Yet? Ch. 1 & 2	2 hr lecture & discussion (Merck-Frosst)	June 3, 2004
24. HRT & PG Analogs	2 hr lecture & discussion (Merck-Frosst)	May 26, 2004
25. Are We There Yet? Ch. 1 & 2	2 hr lecture & discussion (Merck-Frosst)	May 12, 2004 (Surrey)
26. Pharmacology Update 2003	1.5 hr lecture & discussion	May 27, 2003
27. You Never Told Me I Have Glaucoma!	1.5 hr lecture & case discussions (Allergan)	March 31, 2003 (Surrey)
28. Target IOP & HRT	2 hr lecture & case discussions (Allergan)	July 16, 2002
29. Gonioscopy & Fundus Lens workshop	1 hour session for BC Optometry Association Optifair 2002	February 17, 2002
30. Pharmacology Update	3 hour lecture (Merck Frosst)	November 22, 2001
31. Pharmacology, Neuroprotection, Trabeculoplasty, Wick Surgery	Conducted 3 hour workshop (Allergan)	June 13, 2001
32. Eye 2 Eye Whistler	(1 hour equivalent) Moderator of glaucoma program (Pharmacia)	March 10, 2001 (Whistler)
33. Glaucoma Workshop	Conducted 2.5 hour session with case reviews and CPD	December 5, 2000
34. Telemedicine	1 hour lecture for Odd Fellows and Rebekahs	November 9, 2000
35. Nerve Head Imaging Techniques	2 hour lecture (Merck)	October 11, 2000 (Langley)

36. Glaucoma Workshop	Conducted 3.5 hour case review session	August 16, 2000 (Kelowna)
37. Visual Fields & Glaucoma	1 hour lecture for for Downtown Vancouver Rotary Club	July 5, 2000
38. Glaucoma Workshop	Conducted 3 hour case review session (Allergan)	May 16, 2000 (Abbotsford)
39. Glaucoma Workshop	Conducted 3.5 hour case review session (Allergan)	May 9, 2000 (Victoria)
40. Trabeculectomy and Pharmacology Update	2 hour lecture (Alcon) for optometrists	April 13, 2000 (Richmond)
41. Ophthalmology Millenium Update	(1 hour equivalent) Moderator of glaucoma program (Pharmacia)	February 25-27, 2000 (Whistler)
42. Visual Fields for the New Millenium	45 minute lecture (Allergan)	January 21, 2000

9. SCHOLARLY AND PROFESSIONAL ACTIVITIES

(a) Areas of special interest and accomplishments

I have established a reputation at the national and local areas as a glaucoma clinician-educator. I have been involved in continuing professional development, developing educational material used across the country. I have been an invited speaker as an expert in glaucoma and clinical technology at local, national and international meetings.

I have been active in setting standards of glaucoma care in Canada by working on national committees. As part of the Canadian Perspectives in Glaucoma Management, we developed a unique series of guidelines, published in the Canadian Journal of Ophthalmology and used as course material across the country. These standards have involved combining evidence-based medicine with clinical consensus. To date, guidelines on classification of glaucoma severity and on Central Corneal Thickness measurements have been published. In 2009, we published our recommendations on treatment and follow-up of open-angle glaucoma patients based on recognizing the risk factors for glaucomatous progression. I have also co-authored the Standards, Limitations, and Conditions of treating glaucoma by optometrists in BC with the College of Optometrists Therapeutics committee, the Canadian guidelines on inter-professional management of glaucoma patients with the Canadian Glaucoma Society.

Following my appointment as an Assistant Professor at UBC, I completed a Masters in Education, which helped strengthen my skills in developing educational material to target the needs of the participants. This helped me, working with Dr. Giaschi to revise the format of the UBC Ophthalmology Department's annual Research Day in order to emphasize the clinical relevance of basic science research. I have also used this knowledge to plan the program for a Glaucoma Clinical Day, Canadian Glaucoma Society annual meeting, an Annual Canadian Glaucoma Meeting and others.

In addition, I studied the practice patterns of Canadian glaucoma specialists in order to make recommendations to plan for the next generation of glaucoma patients, which was published in 2007. The manuscript for a second research project in education has also been used to make recommendations for changes in the UBC residency training program in order to meet the needs of the communities in which our graduates will be serving upon completion of their training.

Foremost in my interests, is the care of glaucoma patients. In 2005 in conjunction with Dr. Mackenzie and Dr. Isbister, we published the single largest study of patients receiving Ahmed Glaucoma Valves all from a single surgeon. This study is unique in having a long follow-up period (2 years) and in one surgeon (myself) having performed as many surgeries as it took for multiple surgeons from 6 U.S. academic centres combined in the next largest study. By eliminating inter-surgeon variations in technique, we have helped establish this implant's role earlier in the treatment of glaucoma – it is no longer a treatment of last resort.

I have shown an ongoing interest and ability as a glaucoma clinician-educator and have expanded this to the international level using lectures, podcasts, blog and websites.
